

CURRICULUM VITAE

Katja Elina Pellini

KEY SKILLS AND EXPERIENCE

Technical: in depth technical knowledge and practical experience in facilitating and advising environmental governance projects, focusing on forest and biodiversity conservation, climate change mitigation and adaptation, participatory land use planning, as well as design of strategies for the use of different types of knowledge in national/local level policy processes.

Management: extensive experience in problem-driven development approaches (including PDIA), project planning, participatory monitoring and evaluation, and team management.

Reporting: proven track record of quality reporting, data analysis, documentation of lessons learned, and production of training and advocacy materials.

Capacity Building: considerable experience in planning and facilitation of knowledge sharing, training of trainers, institutional strengthening and mentoring support to project staff in government and civil society organisations.

EDUCATION AND PROFESSIONAL QUALIFICATIONS

2003 Pedagogical skills for teaching, University of Jyväskylä, Finland

1999 MSc in Ecology, University of Oulu, Finland

1998 Specialised studies in nature inventory, Oulu Polytechnic, Finland

LANGUAGE SKILLS

Finnish native

Bahasa Indonesia intermediate

English fluent

Cebuano & Khmer basic

EMPLOYMENT RECORD

Ref No.	Date	Country	Title, employer and project
1	Oct 2018 -	Finland	Environmental Governance Expert, Entrepreneur and Co-Founder, <i>Capability Oy</i> , Technical and advisory services in Problem-driven development approaches
2	Mar-May 2019	Indonesia	Consultant – Team Leader, <i>AHT Group AG</i> , Revision of the feasibility study concept and report for the Forest Programme V – Support to Social Forestry in Indonesia, BMZ and KfW
3	May 2018 - Jan 2019	Indonesia	Consultant – Environmental Governance Expert, <i>German Development Cooperation (Deutsche Gesellschaft für Internationale Zusammenarbeit - GIZ)</i> in

Ref No.	Date	Country	Title, employer and project
			Support to Indonesia's Climate Change Response (SICCR) – Technical Assistance Component. funded by the European Union
4	Jan-Feb 2018	Indonesia	Consultant – Monitoring, Evaluation and Learning (MEL) Expert , German Development Cooperation (<i>Deutsche Gesellschaft für Internationale Zusammenarbeit – GIZ</i>) in Support to Indonesia's Climate Change Response (SICCR) – Technical Assistance Component, funded by the European Union
5	Dec 2017 - Jan 2018	Indonesia	Consultant – Country Strategic Opportunities Program (COSOP) 2017 Review , <i>International Fund for Agricultural Development (IFAD)</i>
6	Nov-Dec 2017	Indonesia	Consultant – Project Coordination Expert , German Development Cooperation (<i>Deutsche Gesellschaft für Internationale Zusammenarbeit - GIZ</i>), in Support to Indonesia's Climate Change Response (SICCR) – Technical Assistance Component, funded by the European Union
7	Apr-Sep 2017	Indonesia	Consultant – Provincial Coordinator – Aceh Province, <i>AHT Group AG</i> , in Support to Indonesia's Climate Change Response (SICCR) – Technical Assistance Component, funded by the European Union
8	Aug 2016 - Mar 2017	Indonesia	Consultant – Monitoring, Evaluation and Learning (MEL) Expert , <i>AHT Group AG</i> , in Support to Indonesia's Climate Change Response (SICCR) – Technical Assistance Component, funded by the European Union
9	Nov 2016 - Feb 2017	Indonesia	Consultant – design of policy engagement strategies , <i>International Fund for Agricultural Development (IFAD)</i> , in Rural Empowerment and Agricultural Development Scaling Up (READSI) Project
10	Dec 2016	Indonesia	Consultant – elaboration of technical proposal , <i>German Development Cooperation (Deutsche Gesellschaft für Internationale Zusammenarbeit - GIZ)</i> for Promoting Sustainable Community Based Natural Resources Management and Institutional Development Project funded by World Bank (WB)

28	1999/2000	Finland	Biologist -Nature Inventory, National Board of Forestry (Metsähallitus) -short term

DESCRIPTION OF SELECTED PROFESSIONAL ASSIGNMENTS

Consultancies:

Ref No.	Employer, title and timeframe	Project and tasks
3,4,6	German Development Cooperation (Deutsche Gesellschaft für Internationale Zusammenarbeit - GIZ), Environmental Governance Expert/Monitoring, Evaluation and Learning (PMEL) Expert/ Project Coordination Expert , Indonesia, May 2018 – January 2019, January - February 2018, Nov-Dec 2017	<p><i>The Support to Indonesia's Climate Change Response – Technical Assistance Component (SICCR-TAC) has been funded by the European Union and implemented by the consortium of GIZ, SNV and AHT Group AG. Volume: 6,498,000 EUR; European Union</i></p> <p>Environmental Governance Expert: Provided technical advisory and back up services to the design and implementation of the provincial climate change mitigation and adaptation strategy focusing on forest and land-based sectors, designed financing mechanisms to strengthen Forest Management Units (FMU) through public and market-based finance, facilitated participatory land use planning and biodiversity conservation in forest area.</p> <p>Monitoring Evaluation and Learning Expert: Promoted networking, knowledge exchange and sharing between national and provincial government institutions on strengthening of FMUs, integrated implementation of the climate change strategy, and promotion of partnerships for forest conservation.</p> <p>Project Coordination Expert: Provided advisory services and coached the national project staff in operational management, monitoring and reporting.</p>
9	International Fund for Agricultural Development (IFAD), Design of the policy and knowledge management in READSI , Indonesia, November 2016- February 2017	<p><i>The Rural Empowerment and Agricultural Development Scaling Up Initiative (READSI) project funded by IFAD aims at strengthening policy and institutional framework for smallholder agriculture at provincial and district levels in Indonesia. Volume: USD 87,284,000; IFAD</i></p> <p>Designed strategy and activity plan for policy and knowledge management under the READSI Project. Tasks: identified priority policy issues on rural development and smallholder agriculture; defined strategy for integration of READSI policy into the national policy framework on smallholder agriculture and climate change adaptation; design of institutional arrangements at sub-national level; a detailed work plan and budget for the first year of implementation; and design of the programme M&E framework.</p>
14	Consultant – setting up of the Knowledge Management Centre as a platform to strengthen policy	<p><i>The Integrated Participatory Development and Management of Irrigation Project (IPDMIP) is funded by the Asian Development Bank (ADB) and (IFAD).</i></p> <p>The KMC was established as a platform to strengthen policy dialogue in the irrigated smallholder agriculture in Indonesia. Tasks: Finalised the roles, responsibilities and</p>

	dialogue , International Fund for Agricultural Development (IFAD) –in irrigated agriculture in the Ministry of Development Planning (BAPPENAS) (Indonesia)	membership of KMC promoting knowledge sharing and networking on local governance reform in irrigated agriculture and integrated watershed management. Pre-identification of the first set of potential policy issues on irrigated smallholder agriculture as the focus of the KMC, as well as process and criteria for future identification and finalisation of priorities. Defined in detail the process leading from the identification of priority policy issues to the drafting of new regulations. Planned stakeholder consultations and policy engagement of stakeholders.
15	Transparency International (TI), REDD+ and governance learning review , Indonesia, Papua New Guinea, Vietnam, January - February 2016	<i>The Preventive Anti-Corruption Measures in REDD+ and REDD+ Governance and Finance Integrity projects funded by NORAD. Volume: ca. 500,000 Euro; NORAD</i> Assessed the progress of projects carried out under Transparency International's Climate Finance Integrity Programme promoting better transparency, accountability, and integrity in decision-making processes and operations of climate financing mechanisms. Conducted a learning review workshop using participatory methods to assess the project's progress towards its defined objectives including a mapping of project outcomes with the participation of the TI-Secretariat and National Chapters from Indonesia, Vietnam and Papua New Guinea using TI's Impact Matrix approach. Produced actionable recommendations to support the sustainability of project outcomes in the implementing countries and identified key lessons for TI's broader Climate Finance Integrity initiative to tackle corruption risks in REDD+ and climate change mitigation.
16	Komunitas Konservasi Indonesia WARSI, validator of the Project for Plan Vivo Certificate , Jambi, Indonesia, October - November 2015	<i>The Bujang Raba Community Payment for Ecosystem Services Project. Volume: ca. 150,000 Euro; Rainforest Foundation Norway</i> Reviewed project documentation and supporting evidence against the Plan Vivo Standard. Conducted a field visit to verify project area and governance structure by interviewing project in-country manager, community members and leaders, women groups, local government officials, government forestry agencies and extension services. Assessed planning documentation, databases, templates, legal agreements and validated interview results with the project documentation. Prepared the report based on analysis of the interview results and data to identify evidence of conformance with each requirement in the Plan Vivo Standard, including involvement of and expected impact of project on women, disadvantaged people and other social groups.
17, 18	International Fund for Agricultural Development (IFAD), design of a policy and institutional strengthening component & lead policy and knowledge sector review in IPDMIP design , Indonesia, September 2015, March-June 2015	<i>The Integrated Participatory Development and Management of Irrigation Project (IPDMIP) is funded by the Asian Development Bank (ADB) and (IFAD). Volume 94,560,000 Euro, IFAD-ADB</i> Defined methodology, activities and costing for strengthening the policy and institutional frameworks on rural development and smallholder agriculture at the local government level through <i>iterative problem-solving</i> approach. The <i>local policy dialogue</i> is planned for 15 provinces with 97 districts in the policy component of the ADB-IFAD funded loan project in smallholder-irrigated agriculture. Led policy and knowledge sector review conducted together with two local consultants on the policy and institutional frameworks supporting smallholder-irrigated agriculture and integrated, participatory watershed management. Mapping of government, civil society and non-governmental actors, involved in knowledge production and knowledge demand in the IPDMIP.

Full time employment:

Ref No.	Employer, title and timeframe	Project and tasks
1	Capability Oy, <u>Environmental governance and ecosystems</u> , October 2018 -	<p><i>Capability supports development programmes to find sustainable solutions to governance problems identified by local partners. (www.capability.fi)</i></p> <p>Products: Problem-driven evaluation; Problem-driven project design; and Problem-driven Political Economy Analysis</p>
7	AHT Group AG, <u>Provincial Coordinator for Aceh</u> , Government of Aceh, Indonesia, April–June 2017	<p><i>The Support to Indonesia’s Climate Change Response funded by the European Union and implemented by the consortium of GIZ, SNV and AHT Group AG. Volume: 6,498,000 EUR; European Union</i></p> <p>Provided technical advice, expertise, tools and capacity development to the SICCR - Technical Assistance Component to ensure coordinate delivery of services and strong presence of the project in Aceh Province.</p> <p>Led implementation of project activities in close coordination with the Provincial Government of Aceh. Managed and supervised national project staff and ensured timely delivery of agreed short term Non-Key Expert inputs.</p> <p>Provided expert input services and technical assistance on the integration of climate change mitigation and low carbon development strategies in local development planning and budgeting and spatial plans encompassing different jurisdictions (province, district, village).</p> <p>Facilitated partnerships between local government, private sector actors and cooperatives for sustainable forest area management and green economic development, including investments for renewable energy and sustainable watershed management.</p>
21	German Development Cooperation (Deutsche Gesellschaft für Internationale Zusammenarbeit) – GIZ, <u>Technical Advisor</u> , Government of Negros Oriental, the Philippines, 2009–2013, Volume 4,685,000 Euro; KfW	<p><i>The Community Based Forest and Mangrove Management Project (CBFMMP) Project was funded by the KfW Entwicklungsbank and implemented by the consortium of DENR, GIZ and Land Bank of the Philippines. Volume 4,685,000 Euro; KfW</i></p> <p>Liaised between the Department of Environment and Natural Resources (DENR) and local government units in Negros Oriental to develop a viable mechanism for decentralised Forest Land Use Plan (FLUP) technical assistance. The Provincial Forestland Assistance Team was established and capacitated in FLUP methodology including biodiversity conservation strategies and gender aspects of participatory forest management.</p> <p>Provided advisory services for 25 municipalities in Negros Oriental in integration of information and strategies from the Forest Land Use Plans (FLUP) into Comprehensive Land Use Plans (CLUP).</p> <p>Designed and tested a methodology with six villages in Negros Oriental for the conduct of a participatory village level spatial planning process (Barangay Land Management and Allocation Process - BLMAP).</p> <p>Provided advisory services for 25 municipalities in Negros Oriental to prepare mixed loan and grant project proposals for reforestation/agroforestry and rural infrastructure. Proposals prepared and implemented in partnership with community-based organisations resulted to 2,500 hectares of reforested land, one upland aquaculture facility, 15 Small Water Impounding Projects (SWIP), one water system and one sawmill as well as 25 km of improved rural roads.</p> <p>Contributed to networks promoting co-management of the state-owned forestland and participation of local governments in forest sector reform. Provided inputs on the preparation of the national co-management policy guidelines and GIZ MOREFOREST publication.</p> <p>Contributed to effective project management: development of the detailed Project Operational Plan (POP), annual work plans and day to day mentoring support for the seven staff of the Project Management Unit.</p>
24	DED - German Development Service,	<i>Mlup Baitong NGO (www.mlup-baitong.org), Cambodia</i>

Ref No.	Employer, title and timeframe	Project and tasks
	NGO Programme Advisor , Cambodia, 2001-2005	<p>Identified four new Community Forest areas and facilitated the Participatory Land Use Planning (PLUP), strengthening participatory forest governance and biodiversity conservation through pagoda associations, community forest associations, women groups and Commune Councils.</p> <p>Supported community participation in village governance and establishment of village networks (network of community-based organisation representatives in village governance).</p> <p>Coordinated implementation of four projects on community forest development, biodiversity conservation, home-gardening, women self-help groups and environmental education funded by IUCN, Oxfam GB, Oxfam America, Ministry of Foreign Affairs Finland and Werde ry.</p> <p>Advised six project staff and two volunteers based in the Kampong Thom Field Office.</p>
